

# Portable Laser Wheel Alignment Gauge

No Hoist Needed / Stand-Alone Solution  
For Workshops & Home Mechanics

## Features

- Measure toe-in and toe-out of cars, vans and commercial vehicles
- Easy operation, very economical and professional
- Robust support arms design, using 2.5mm high quality steel
- Metal material contact bars to ensure long working time and more durable
- With two gradienters on each baseframe to ensure accuracy
- Powered by 2 AA batteries, CE approval laser unit
- High quality painting, galvanizing finish and painting abrasion resistance finish

## Specification

Toe angle:	±3°
Accuracy:	±0.01°
Rim capacity:	10"-24"
Optical Power:	2mw
Milliwatt:	1mw
Lasing wavelength:	650nm
Operating Voltage:	3.0V
Operating Current:	15mA
Operating Temp:	-10°C-40°C
Storage Temp.:	-40°C-80°C
